Free Sharpening for Life of the Rotor

Bay Plastics Machinery wants to help you stretch your budgets, by offering our customers a rare opportunity; for any new rotors purchased, we will offer **free standard¹ sharpening for the life of the rotor** (this does not include repair or blade replacements). When the rotor is dull simply return it to BPM and we will sharpen it at no cost to the customer. This represents a savings of thousands of dollars over the life of the rotor.

New Rotors

Rotor Repair and Re-Sharpening

In addition to rotor work BPM offers the other parts necessary to maintain your equipment including bearings assemblies, bed knives, feed rolls, bearing blocks, doctor blades, universal joints, gear boxes, seals, eccentrics, etc. for all brands of pelletizers (**Conair, Reiter, Cumberland, Scheer**).

Contact Roger Malmo Spare Parts Manager @ 989-671-9630 or rmalmo@bayplasticsmachinery.com.

¹The free sharpening for life is only for standard sharpening, and does not include any rotor repair work or replacement of blades. A standard sharpening includes back off angle and OD grinding only, any additional work required will be quoted as needed.
